Potential Courses of Action:

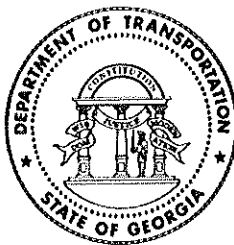

- A. Submit an approved and signed contract.
- B. Do not submit an approved and signed contract.

Comparison: If Course A is chosen, the above referenced services will continue to be provided to Lumpkin County residents for the period July 1, 2016 through June 30, 2017.

If Course B is chosen, operation of the Lumpkin County Transit System will be suspended immediately. (The funding cycle began on July 1, 2016).

Recommendation: It is recommended that Course A be chosen - Submit an approved and signed contract to the Georgia Department of Transportation. Federal funds are necessary to continue to meet the needs of transportation challenged citizens in Lumpkin County.

We understand that your typical process requires a final contract to be available for various legal and administrative reviews prior to forwarding it to your governing board for signature approval; however, since your final contract is not yet ready for signature, we are asking for your help in doing the following steps:

- *Please advise your governing board and key staff as soon as possible that your FY 17 contract will be transmitted by early August 2016 for approval and contract execution.*
- **Authorizing Resolution** – In order to save time with the contract execution, we are suggesting that your governing board approve an *Authorizing Resolution* at the next meeting in advance of receipt of your contract documents. Approval of the authorizing resolution, incorporating the contract amounts detailed above, will allow the designated and authorized representative to execute the contract documents and return to GDOT. It is suggested that your authorizing resolution also include language approving the payment of the 10% local match as shown in Table 1 under the *Local Match Funding Amount* for *Capital Funds*-
